

# MARÍA LÓPEZ BADRI

## Data Engineer — Computer Engineering & Business Administration Graduate

Alicante, Spain · (+34) 642 284 556 · marialb203@gmail.com · linkedin.com/in/maría-lópez-badri-7572022a3

### PROFILE

Graduate of the Double Degree in Computer Engineering and Business Administration (Universidad de Alicante), with hands-on experience building data pipelines on Google Cloud Platform (BigQuery, Dataform) under a medallion architecture. Hybrid technical-business profile, able to translate business needs into scalable data solutions and to automate processes end to end. Motivated to keep learning data and AI technologies in a fast-paced, high-performing environment.

### WORK EXPERIENCE

#### InferIA — Research Assistant (Data Engineering)April 2026 - Present

- Contributed to a data lake on Google Cloud Platform (BigQuery, Dataform) for a real estate client, working within a medallion architecture (Silver and Gold layers).
- Built fact tables in the Gold layer, following data modeling patterns established by the team.
- Implemented deduplication logic and data quality controls in SQL (QUALIFY, ROW\_NUMBER, NULLIF) across multiple staging sources.
- Debugged data ingestion pipelines in Python: fixed organization filters and managed watermarks for incremental sync.
- Stress-tested and quality-checked an AI conversational agent, documenting functional issues for resolution.

#### ComplyNow — InternshipJuly 2025 - January 2026

- Contributed to backend development with Laravel (PHP) and mobile frontend with Ionic.
- Digitized and automated business processes through technology integration using Make.
- Translated business needs into technical solutions, working directly with the technical team on functional improvements.
- Drove sales for the platform.

### TECHNICAL SKILLS

Data & infrastructure: SQL, BigQuery, Dataform, Google Cloud Platform (GCP), ETL / Data Pipelines, Medallion Architecture, Data Quality & Governance, Docker

Development: Python, Java, C, C++, JavaScript, Laravel, .NET, Maven, junit, Make

### SOFT SKILLS

Adaptability & fast learning · Analytical thinking · Professional communication · Teamwork

### EDUCATION

#### Universidad de Alicante Sep 2026 - Jun 2027

Master's Degree in Artificial Intelligence

#### Universidad de Alicante Sep 2022 - Jun 2026

Double Degree in Computer Engineering and Business Administration
